Multiple Size of Labels - with Automatic Cut After Print

A great feature of The Prism is its versatility. You can load a roll of label stock any width between 2.2" and 8.25". This allows the user to create any size label necessary for the job at full color. After the label is printed The Prism will automatically cut leaving a single printed label ready to apply to the packaging.

Easy Windows Based Driver- Customized IOS & Android Ready

Run your on demand printing from the cloud and use your existing PDF templates to download and create labels in real time. Use the tablet to select the label image, add your specific data if you like and press print. Select 1 copy to many copies. The printer will create a full color, photo quality label and auto cut ready to peel and apply.

Bring Label Printing To Your Desktop

The Power to Do More in Less Time - A unique digital press solution for short run on demand label printing.

The Prism is a digital label press solution printing at speeds up to 2 inches/second for real time dispensary label production on a variety of die-cut, kiss-cut or roll substrates. This innovative label press is easy to operate, so you can say goodbye to ordering huge quantities of pre-printed labels. Designed for in-house production of labels, users will be capable of printing thousands of labels ready to be applied to any packaging.
